

Last Day to Submit Your Right of Entry (ROE) Form to LA County

Release Date: April 16, 2025

LOS ANGELES – Today is the last day for property owners to submit a **Right of Entry (ROE) form to LA County**. In order to have debris removed by the U.S. Army Corps of Engineers (USACE), property owners affected by the Los Angeles Wildfires must submit a ROE form by **11:59 p.m. PT today, April 15**.

Federally funded debris removal is available to residents of single family and owner-occupied multi-family units.

All disaster impacted property owners should submit a ROE form by April 15, 2025, to [opt-in or opt-out of the debris removal program](#).

If a property owner opts-out of the USACE debris removal program, they become responsible for all permits, inspections and other associated debris removal requirements and costs.

There is no out-of-pocket cost to have debris removed by USACE, however the program is unable to duplicate other forms of funding specific to debris removal. If a property owner has insurance for debris removal, residual funds not used by the property owner may be remitted to the county to offset the cost of debris removal at a later date.

1. Submit a ROE form to LA County:

- Complete a form online at: [Los Angeles County Right of Entry Permit for Debris Removal on Private Property](#).
