- II. **DATE OF ISSUANCE:** August 19, 2013
- III. **POLICY STATEMENT:** FEMA will not obligate funds unless a State, Tribal, or Local government meets the requirements set forth in accordance with Title 44 Code of Federal Regulations (CFR) Part 201 of having a FEMA-approved Mitigation Plan relative to the following FEMA programs (see details in Section IX Policy Details):
- A. Public Assistance – Categories C-G
 - B. Fire Management Assistance Grants
 - C. Hazard Mitigation Grant Program

- IV. **PURPOSE:** The purpose of this policy is to describe implications of not having a FEMA-approved Mitigation Plan relative to the FEMA programs listed above as well as key information for FEMA Regional Administrators to continue to communicate to State, Tribal, and Local governments.
- V. **SCOPE AND EXTERNAL AUDIENCE:** This policy shall apply to State, Tribal, and Local governments interested in seeking financial assistance through the FEMA programs listed above.

- C. Hazard Mitigation Grant Program

expiration of a FEMA-approved mitigation plan are not affected by this policy, and will continue to be administered under the terms of the grant award.

State, Tribal and Local governments may have had FEMA-approved Mitigation Plans when a declaration occurred, or when a non-disaster grant application was submitted. However, this is not sufficient for Grantees to receive funds after the plan has lapsed. The requirement is that the State, Tribal and/or Local government must have a FEMA-approved Mitigation Plan at the time it receives the grant, also described here as FEMA obligation of funds. This is not a permanent stop to and loss of funding, but rather a temporary hold on awards until the mitigation plan is approved by FEMA.
